

Aircraft Types

Airbus A330-200

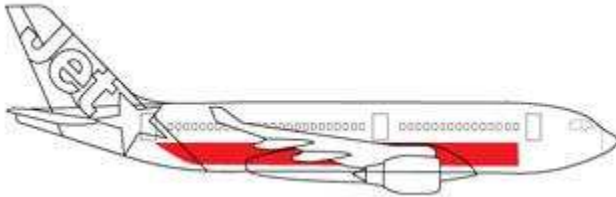

Aircraft Type	Airbus A330-200
ULD Configuration	14LD3/4LD7
Equipment available for freight (based on full passenger loads)	4LD3 + 4LD7 + bulkhold
Volume available for freight (based on full passenger loads)	61.8m ³
Maximum weight	14,100kg

Airbus A330-300

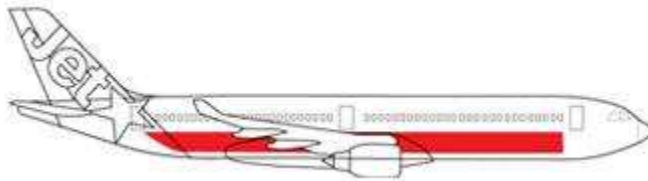

Aircraft Type	Airbus A330-300
ULD Configuration	18LD3/5LD7
Equipment available for freight (based on full passenger loads)	6LD3 + LD7 + bulkhold
Volume available for freight (based on full passenger loads)	80.2m ³
Maximum weight	15,000kg

Airbus A320

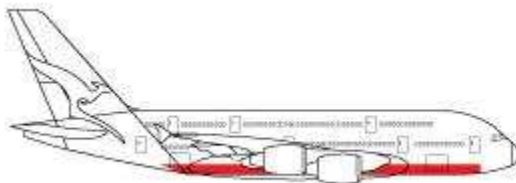

Aircraft Type	Airbus A320
ULD Configuration	7AKH*
Equipment available for freight (based on full passenger loads)	1AKH + bulkhold
Volume available for freight (based on full passenger loads)	3.6m³
Maximum weight	1,000kg

Airbus A321

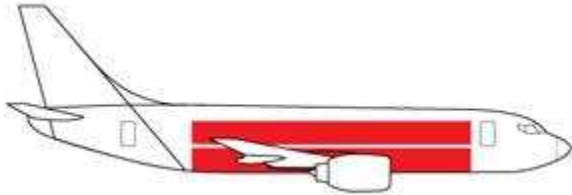

Aircraft Type	Airbus A321
ULD Configuration	10AKH
Equipment available for freight (based on full passenger loads)	3AKH + bulkhold
Volume available for freight (based on full passenger loads)	10.8m³
Maximum weight	3,000kg

Airbus A380-800

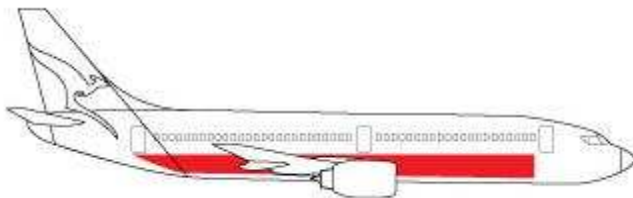

Aircraft Type	Airbus A380-800
ULD Configuration	18LD3/5LD7
Equipment available for freight (based on full passenger loads)	3LD3/5LD7 + bulkhold
Volume available for freight (based on full passenger loads)	68.0m³
Maximum weight	20,000kg

Boeing B737-300 Freighter

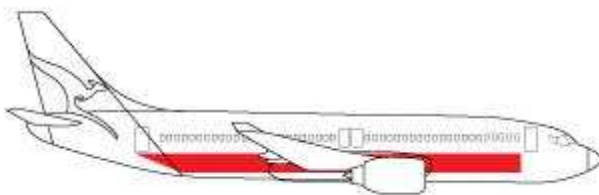

Aircraft Type	Boeing B737-300 Freighter
ULD Configuration	8AAA/1AGP
Equipment available for freight	main deck, lower deck + bulkhold
Volume available for freight	132.9m³
Maximum weight	17,340kg

Boeing B737-400

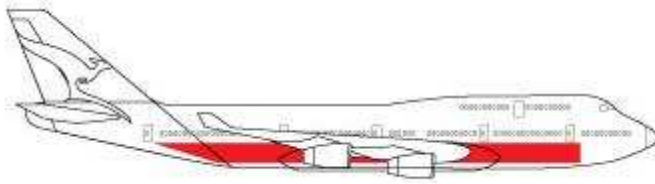

Aircraft Type	Boeing B737-400
ULD Configuration	-
Equipment available for freight (based on full passenger loads)	bulkhold only
Volume available for freight (based on full passenger loads)	24.0m³
Maximum weight	2,897kg

Boeing B737-800

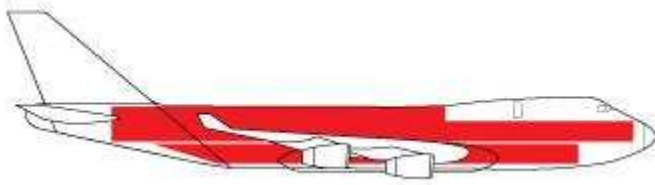

Aircraft Type	Boeing B737-800
ULD Configuration	-
Equipment available for freight (based on full passenger loads)	bulkhold only
Volume available for freight (based on full passenger loads)	28.0m³
Maximum weight	3,600kg

Boeing B747-400

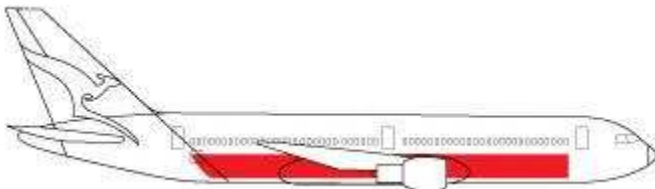

Aircraft Type	Boeing B747-400*
ULD Configuration	14LD3/6LD7
Equipment available for freight	2LD3/6LD7 + bulkhold
Volume available for freight	73.4m³
Maximum weight	20,000kg

Boeing B747-400 Freighter

Aircraft Type	Boeing B747-400 Freighter
ULD Configuration	30M1/9LD7/2LD3
Equipment available for freight	main deck, lower deck + bulkhold
Volume available for freight	764.5m³
Maximum weight	110,000kg

Boeing B767-300

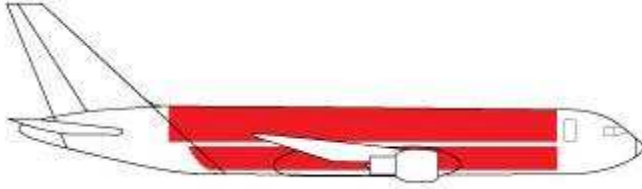

Aircraft Type	Boeing B767-300
ULD Configuration	9LD8/3LD7
Equipment available for freight (based on full passenger loads)	4LD8/3LD7 + bulkhold
Volume available for freight (based on full passenger loads)	63.0m³
Maximum weight	16,500kg

Boeing B767-300 Freighter

Aircraft Type	Boeing B767-300 Freighter
ULD Configuration	20AAX/15LD8
Equipment available for freight	main deck, lower deck + bulkhold
Volume available for freight	438.50m³
Maximum weight	59,000kg
